Datasheet AIPFCC24

Al PF CC 24 for mechanical applications. Impact-resistant, noise-reducing, wear-resistant material. Well suited as a lowfriction material. High wear resistance in aggressive and dust-filled environments. Can be lubricated with water, oil or grease. Examples of applications are ball-bearing cages for spindle bearing and guide rings for hydraulic cylinders. Can be used, in particular, for mechanical applications where fine tolerances and smooth surface finish are required.

Application

For mechanical applications where fine tolerances and surface coarseness is required

Material

Strengthened with fine tissue.
